

Technical Data:

- 1) Switches are used on Mueller gas valves.
- 2) Electrical Rating: 3 amps 120 VAC 60 Hz.
- 3) Actuator Rotation: Counter-clockwise.
- 4) ON/OFF Rotation Range: Custom designed to match customer requirements.
- 5) Terminals: .110 x .020
- 6) UL Recognized: Special Use Switch Standard UL1054, File No. 85183, UL Guide No. WOYR2.
- 7) UL approved material for this switch is: Rynite FR530 Polyethylene, UL 94-VO flammability rating, UL746, RTI 311°F/155°C.
- 8) Life Cycle Test: 6,000 cycles min. ON/OFF (UL requirement)
- 9) Overload Test: 150ma (150%) for minimum of 50 cycles.
- 10) Post test Hypot: Withstand 1000 volts (1 minute) at end of 6,000 cycles.
